SWAY BAR LINK KIT

COMPATIBLE WITH TOYOTA LANDCRUISER 200 SERIES KDSS

STB8961EXT

The new Roadsafe RH rear extended sway bar link has been designed to work in conjunction with the new STB8962EXT 50mm Dropped Forged LH rear link to allow for considerably increased suspension travel on 200 series KDSS vehicles when fitted with longer travel shocks (length to be checked & confirmed prior to fitment).

Part Number STB8961EXT

RH Rear 50mm Extended Sway Bar Link

STB8962EXT

The new STB8962EXT has been designed and manufactured in a one piece forged design with OE spec rubber bushings and ball stud to replicate the OE item in function and appearance suited to KDSS 200 Series with 50mm+ suspension lift.

Part Number STB8962EXT

LH Rear 50mm Dropped Sway Bar Link
