

FITTING INSTRUCTIONS

VEHICLE	Toyota Landcruiser 300
PRODUCT	Fuel filter cover
PN#	SB073
NOTE	Suggested fitment by a qualified mechanic or 4wd accessory fitter

IMPORTANT NOTE BEFORE INSTALLATION

Suggest Fitment By Mechanic

COMPONENT LIST

- 1x SB073_101 LC300 Fuel Filter Guard
- 2x M8 Washer 1.5t
- 2x M8x1.25 RH 40L Full thread
- 2x M8x 1.25 Nut

TOOLS REQUIRED

- General hand tools

ASSEMBLY

1. Remove spare tyre for easy access if necessary. Undo 3 OE bolts to loose the fuel filter (Fig1&2).
2. Once the filter is loose, replace the OE bolt shown in the fig with supplied bolt & washer (Fig 3).
3. Align and fit the fuel filter guard as per Fig 4,5,6. Then fit supplier nut & washer as per (Fig 6).
4. Finger tightens all bolts & nuts, check the clearance from guard to filter, chassis rail. Then tighten all bolts & nuts, then refit spare tyre and check the clearance between guard and spare tyre. (Fig7,8)
